SSH logging in and uploading files

After installing SSH two icons will be on your desktop

Always use the one that looks like a folder

Open SSH by double clicking on the icon

Public_html is the main directory (folder) for your web pages; in order to be viewed all files must go inside this directory.

The SSH toolbar has several icons for navigating through the files

On the Right-hand side, double click on **public_html** to open the directory On the Left-hand side, navigate to the location of your web files

To upload new files, or folders, to your web site simply click on the file, drag from the left-hand (local computer) to the right-hand (remote computer), and release.

| ſ | Transfer [Queue] | | | | | | | | | |
|---|------------------|------------------|-----------------------|----------------|-----------|----------|--|--|--|--|
| | A Source File | Source Directory | Destination Directory | Size Status | Speed | Time | | | | |
| ŀ | 🕅 New.html | \\file1\home\ | /export/homes/studer | 8,301 Complete | 64.6 kB/s | 00:00:00 | | | | |
| | | | | | | | | | | |
| | | | | | | | | | | |

At the bottom of the screen the file you are moving will appear The status will change to complete when it is fully copied

New file will appear on the right-hand side.

To download a file or folder to your computer from the remote computer to your computer drag the files from the right-hand side to the left.
